---

Full-Stack Developer with 3.6 years of experience specializing in the MERN stack and React Native. Skilled in building scalable web and mobile applications, integrating RESTful APIs, and optimizing performance. Focused on delivering clean, maintainable code and user-friendly solutions.

## Experience

- **Full-Stack Developer at AmazingWeb.Design, Bhopal, Madhya Pradesh** 03 July 2023 - Present
  - Developed scalable web and mobile applications using React.js, React Native, Node.js, Express.js, Laravel, MongoDB.
  - Built and optimized React Native apps, integrating Node.js and MongoDB for backend processing.
  - Designed and deployed RESTful APIs, ensuring efficient data flow and seamless backend communication.
- **Full-Stack Developer at Script Qube Pvt. Ltd, Janakpur, Nepal** 05 Jan 2022 - 30 Jun 2023
  - Built and maintained MERN stack web applications with secure, scalable architecture. Worked with RESTful APIs, integrated payment gateways, and tested APIs using Postman. Used Git, GitHub, and CI/CD pipelines for version control and automated deployments.
- **MERN Stack Developer Intern at Gempluse Infotech Pvt. Ltd, Jaipur** 02 Dec 2019 - 25 Feb 2020
  - Worked on building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
  - Developed RESTful APIs and integrated them with dynamic front-end components.
  - Gained hands-on experience in component-based UI development, state management, and backend logic.
  - Improved problem-solving and debugging skills while working on real-world MERN stack projects.

## Education

- **B.SC. Information Technology** Completed in 2023  
Rabindranath Tagore University, Bhopal, MP
- **Diploma in Computer Science and Engineering** Completed in 2020  
Jagannath University, Jaipur, Rajasthan

## Skills

- **Frontend:** React Native ,React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Material UI, AJAX, jQuery
- **Backend:** Node.js, Express.js, Laravel, PHP
- **Database:** MySQL, MongoDB
- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Tools :** Git, GitHub, Gitlab, CI/CD Pipeline, RESTful APIs, Postman, Payment Gateway Integration, Firebase (Push Notifications), AI Integration, websocket, aws, docker, microservices, redis, jira

## Projects

- eServMarket – Ecommerce | Node.js | Express.js | MongoDB | React Native**
  - Developed scalable APIs to power the admin panel, customer website, seller panel, and mobile apps.
  - Built seller registration with document verification & approval workflows for admin.
  - Enabled service & product listing for sellers, accessible to customers after approval.
  - Developed auction functionality, allowing customers to raise bids & sellers to submit competitive bids.
  - Used MongoDB for data storage and Express.js for API handling.
- 3. Minemi – Loan Eligibility Calculator | React.js** URL : <https://minemi.ai/personalloan/check-eligibility>
  - Developed a loan eligibility tracker for users to check loan options across banks.
  - Built an EMI calculator for repayment estimates & schedules.
  - Implemented eligibility determination based on financial & loan history.
